WEAVEGUARD AI — QUALITY COMPLIANCE CERTIFICATE

Batch Digital Traceability Record • Generated 2026-09-30 00:59 UTC

Batch ID:	**WG-MET-2026-001**	**Status:**	**IN_INSPECTION**
Product:	Precision CNC Aluminum Bracket	**Category:**	Metal
Production Qty:	150	**Total Inspected:**	**4**
Pass Rate:	**50.0%**	**Defect Rate:**	**25.0%**
Inspector:	R. Sharma (Senior QA)	**Production Date:**	2026-09-27

1. Defect Category & Severity Analysis

Defect Classification	Count	Primary Region	Severity Impact
No defects detected across batch inspections.	0	N/A	PASSED

2. Individual Product Inspection Records

Code	Status	AI Conf.	Score	Decision Reason
INSP-WG-MET-2026-001-001	**PASSED**	98%	100.0%	Zero defects identified. Flawless surface geometry and assembly verified.
INSP-WG-MET-2026-001-002	**PASSED**	94%	94.0%	Minor defect within permitted tolerance (1/2 allowed). Product approved.
INSP-WG-MET-2026-001-003	**FAILED**	97%	20.0%	Critical defect detected: [Stress Crack]. Immediate rejection per safety and quality protocol.
INSP-WG-MET-2026-001-004	**MANUAL_REVIEW**	57%	65.0%	Low AI confidence (58% < required 65%). Inspector manual verification required.

3. Quality Alerts & Corrective Action Log

Alert / Action Code	Type / Priority	Status	Resolution / Action
ALT-CRIT-WG-MET-2026-001-001	CRITICAL_DEFECT (CRITICAL)	**IN_PROGRESS**	CRITICAL DEFECT: Stress Crack
CA-ACT-WG-MET-2026-001-01	Corrective Action (Dr. M. Weber (Materials Metallurgist))	**PENDING_REINSPECTION**	Adjusted furnace cool-down ramp timer by +15 minutes. Segregated 10 adjacent serial units for non-destructive eddy current testing.
